KTH - The Royal Institute of Technology

Fourth assignment: consensus

- Implement and experiment with
 - Paxos Uniform Consensus
 - Fail-noisy (partially synchronous) model
 - Uses: Abortable consensus
 - Uses: Eventual leader elector (Ω)
- Consensus discussed in lectures 9-10
- Read chapter 5 of the textbook!
- For requirements see Assignment4.pdf
- Algorithms* given in Assignment4.pdf

Consensus

◆ UcPropose ◆ UcDecide

◆ AcPropose ◆ AcDecide

◆ Trust

◆ Decided \subseteq ◆ BebDeliver

◆ {Read, Write} \subseteq ◆ BebDeliver

◆ {R, W, N}ack \subseteq ◆ Pp2pDeliver

◆ EldTimeout \subseteq ◆ Timeout

◆ Heartbeat \subseteq ◆ Pp2pDeliver

◆ {Uc, Ac, Eld}Init \subseteq ◆ Init
